### New RD35 "SP" Construction

Hoosier is proud to introduce a new "SP" construction for the 11.0x8.1-6 RD35 compound. The new RD35 was based off of the 11810 RD35, but a series of construction changes have been made to improve overall grip on loose tracks that are sandy, dusty, or lack grip. The new catalog number and tire specs are listed below.

Item Number	Tire Size	Application	Tread Width	Approx. Dia	Approx. Circ	Recom. Rim	Measured Rim	Section Width	Compound
11807	11.0x8.1-6 "SP"	RF & RR	8.0"	11.0"	34.0"	10"	10"	10.125"	RD35

The RD35 will still have a cold durometer of 52-54. These tires will be in stock during the week of 11/22/10.

If there are any questions, please feel free to contact [abaton@hoosiertire.com](mailto:abaton@hoosiertire.com) or any of your Hoosier Racing Tire Distributors.
