Subject: New R60A compound for Sprint Karts

In an effort to provide our customers with a superior tire that can be used for multiple race weekends, Hoosier is proud to release a new R60A compound as the successor to the popular R60. The R60A maintains the same level of consistency, performance and versatility as the R60, but it will have improved longevity and better wear characteristics. The R60A has been designed with a slight increase in overall grip and is considered our medium compound for sprint and road race kart applications.

The R60A is initially being offered in the 4.5/10.0-5 and 7.1/11.0-5 tire sizes. The tire specifications are listed below.

Item Number	Tire Size	Tread Pattern	Tread Width	Approx. Dia	Approx. Circ	Recom. Rim	Measured Rim	Section Width	Compound
22150	4.5/10.0-5	Slick	4.125"	10.0"	32"	130 mm	130 mm	5.125"	R60A
22360	7.1/11.0-5	Slick	6.25"	11.0"	33.75"	210 mm	210 mm	8.625"	R60A

The R60A will have a cold durometer measure of 60-62. These tires should be in stock by June 13, 2011. The R60A is expected to be available in other sizes at a later release date.
