New Left Rear Dirt Kart Construction for D10A, D20A, and D30A Compounds

Hoosier is proud to introduce the D10A, D20A, and D30A compounds in a stiffer left rear casing to help improve the kart's rotation and handling through the corner on softer dirt kart tracks. These three compounds will be grouped with the existing RD35, D40A, and D60A compounds listed under catalog #11401. The tire specs are listed below.

Catalog Number	Tire Size	Application	Tread Width	Approx. Dia	Approx. Circ	Recom. Rim	Measured Rim	Section Width	Compounds
11401	11.0x6.0-6	Dirt Kart LR	5.5"	10.7"	33.0"	8.5	8.5"	7.875"	D10A, D20A, D30A

These tires will replace the current D10, D20A, and D30A tires listed under catalog #11376. As inventory is depleted for each compound, the new left rears will be released.
