New Line of 4-Cycle Sprint Tires!

With success at the 2009 Rock Island Grand Prix and 2010 Goodland Grand Prix races, Hoosier is proud to release a new line of 6" bead size tires for 4-Cycle Sprint Kart applications. Sizes include a 5.0/10.5-6 front, 6.0/11.0-6 rear, and 6.5/11.0-6 rear. This comprehensive tire line provides the 4-cycle sprint classes with an option of running the most suitable tire combination for their chassis setup on a given track configuration.

The 4-cycle sprint tires will be released in the R45 compound. This compound was carefully selected to provide high traction on multiple track surfaces, offer consistent and repeatable results throughout the life of the tire, and possess superior wear characteristics. The new R45's will not only excel in open competition venues, but they are also a wise choice for any series or track seeking a spec tire.

The tire specifications for each size are listed below.

Item Number	Tire Size	Tread Pattern	Tread Width	Approx. Dia	Approx. Circ	Recom. Rim	Measured Rim	Section Width	Compound
22500	5.0/10.5-6	Slick	4.25"	10.5"	33.25"	6-6.5"	6.5"	6.75"	R45
22600	6.0/11.0-6	Slick	5.75"	11.0"	34.25"	8-8.5"	8.0"	8.25"	R45
22650	6.5/11.0-6	Slick	6.25"	11.0"	34.5"	8.5-9"	8.5"	8.75"	R45

The R45 will have a cold durometer measure of 53-55. These tires are expected to be in stock by August 27, 2010.
