## Hoosier Introduces 68.0/8.0-13 For Mini-Stock/T.Q. Midget Applications

Hoosier Racing Tire is proud to introduce a new product offering for both Mini-Stock and T.Q. Midget competitors throughout the country. Beginning May 1<sup>st</sup>, a new 68.0/8.0-13 tire in four specialized compounds will be available for this important group of dedicated racers.

Based on technology from our industry leading Midget, Sprint and Dirt Late Model tire lines, the new 68.0/8.0-13 will feature aggressive compounds, durable sidewalls, and a proven Large Stagger Block tread pattern. We have also dedicated significant development time into reducing the cost of this tire to help the budget minded racers throughout the country.

The new 68.0/8.0-13 will be available in four compounds: RD12, RD20, D25, D30. All compounds were designed to provide maximum grip without sacrificing durability and repeatability.

Specifications for the new 68.0/8.0-13 include a 69-70 inch rollout, 9.50 section width, and 8.025 tread width. All specifications are based on 8" wheels. The tire should perform well at both the lower air pressures required by T.Q. Midget competitors (5-6 P.S.I.) and Mini-Stock competitors (14-16 P.S.I.) alike.

68.0/.0-13	Midget/Sprint/Micro	Late Model	Competitor
RD12	RD12	LM 10	SD23
RD20	RD20	1325	SD44
D25	D25	1400	SD48
D30	ASCS2/NMMA	LM 30	MD57
