Hoosier Adds S2 Compound for Stock Car Road Course Competition

Lakeville, Ind. – Hoosier is proud to build upon its successful line of 15” stock car road course slicks by adding a softer compound to its lineup. The new S2 compound is designed to maximize performance on lighter weight TA2® cars that compete in club racing. With a cold durometer of 60, the compound quickly reaches its optimal temperature window without hesitation and immediately responds after caution periods. The new S2 is formulated with an ultra-high performance composition that delivers unequaled pace lap after lap throughout a race stint.

Item Number	Tire Size	Tread Width	Approx. Dia	Approx. Circ	Recom. Rim	Measured Rim	Section Width	Compound
43589	330/700R15	11.9”	27.9”	87.1”	10-10.5”	10”	13”	S2

The new **330/700R15 S2** slick will be available for purchase beginning March 16, 2026.
